Dear Attorney Dale Henderson,

I received a confirmation that you read my email subject:

«Thank you -- Nice Meeting You --- Something DOCUMENTED Etched To The Future Outcomes of Peace»

but you did not reply and you did not follow up and click on the document that I requested you read and some requests of forwarding connections.

This being a statement document originally filed to the attention of the court magistrate judge in our case.

Since you could not bother yourself to respond even a "have a good one man" or the like, I have no other option of confirmation that you receive the messages of necessity that are needed here.

There are two PDF attachments here in this fax. The first is the full view new revision of the document that has first revision filed into the court record in case #CIV DS 1921276.

There are unique markups that the judge should become aware of.

This document in its new form revision is a part of the web surface index matching the content on the document.

It will show up as source

" - Fuckeduphuman.net" in the search results if this document remains filed under this memespace #mpatapo binding web presence.

Guaranteed, if you look up the good doctor's name:

Search [Doctor Shigeno] and 14 match results down the list from Google reflect this:

You've visited this page 4 times. Last visit: 7/13/19

If you notice the name was unintentionally misspelled. I have made a correction and the google search indexes will reflect the changes. For the time being the two references match the same location on the web.

This also happens to be noted in this naming convention:

<http://persons.fuckeduphuman.net/Doctor.Eric.Tomomi.Shigeno/>

Is this really where you are going to leave this matter to the public?

Really seriously --- a restraining order does not prevent me from using my property domain define of [<http://doctor-eric-tomomi-shigeno.fuckeduphuman.net>] at my need.

If you attempt to claim that the use of this property is your right to control, we will be back into court because the matter is still open because of you and your client's shortcut to be conflict-avoidant and dismissal of the actual truths in these matters that are rather disturbing to say the least --- to one of the root foundational causes of the erosion of trust that is according to the Washington Post -- How The Erosion of Trust Leads To Murder and Mass Shootings is at your calling to fix this weighty truth.

I will not make any direct name text references to the doctor in public, but as I will indeed use my technology to define "intellectual property" as I see fit. Challenge me and I will win or move to the course path of reconciliation?

It is time to give up this hate memeplex and work for peace and removal of this scheme that silences you all to a state of perplexing stance -- that silence is killing people as we stand here taking notes.

How can you all sleep?

Behind Blue Eyes

The Who

No one knows what it's like
To be the bad man
To be the sad man
Behind blue eyes

No one knows what it's like
To be hated
To be fated
To telling only lies

But my dreams
They aren't as empty
As my conscience seems to be

I have hours, only lonely
My love is vengeance
That's never free

No one knows what it's like
To feel these feelings
Like I do
And I blame you

No one bites back as hard
On their anger
None of my pain and woe
Can show through

But my dreams
They aren't as empty
As my conscience seems to be

I have hours, only lonely
My love is vengeance
That's never free

When my fist clenches, crack it open
Before I use it and lose my cool
When I smile, tell me some bad news
Before I laugh and act like a fool

And if I swallow anything evil
Put your finger down my throat
And if I shiver, please give me a blanket
Keep me warm, let me wear your coat

No one knows what it's like
To be the bad man
To be the sad man
Behind blue eyes

[Plato.Stanford.Edu](http://plato.stanford.edu) : Computing and Moral Responsibility

Dear Court Magistrate Judge Wilfred John Schneider Jr in the proceedings of justice, fairness, and moral responsibility in the matter before this court in the petitioner Doctor Eric Tomomi Shigeno's request for Civil Harassment Restraining Order against defendant James Martin Driskill, a peacebuilder that holds an informational networking ideal known as a trust ladder. In this trust ladder as defined by memespace [namespace] by internet domains, the absolute possibility to create an informational communication tool that can be used to create a #TRUSTBINDING inclusive of parties that are involved in conflict, especially intractable conflict, that could indeed provided the intervention of digital works at new upper reach of resource available to persons who are end of a rope dangling over a cliff and that rope is unwinding to it's fiber threads as each one of these persons who fall into this lineage of the erosion of trust of every aspect of their lives being detached from every aspect of supportive care structures that could hold them above a safety net that is imaginary to even fathom that this hundreds of feet drop of a cliff could even save them from their broken ability to reach to a reconciliation process of those who they are in conflict of, either individually one to one or as a one against a collective like a business organization. In that, the American culture society does not have such a tool at the graphical user interface coded services yet, does not mean that the namespace that is live active right now as we speak is disempowered from this function coded manually. It is my goal sometime soon to code an interface onto a new "Internet of Things" resource of a "technology-assisted conflict resolution system". In that, I cannot seem to fathom why there is so much resistance against such a concept to be activated upon our internet information society.

In that reaching for this augmented conscience rings out the worst oppression ever imagined that people who are acting in secret agendas would, of course, be highly against

such a thing to exist in our world. That is what we have here in this case. The doctor that is at the hidden motives to file this civil case of a petition for harassment and a restraining order has never -- one word at all responded to me to the calling of a community awareness problem that must be taken into a consult and corrected. There seems to be conflict of interest such as I just described and it would be my highest hope that this court is not corrupted to hold the interest and allegiance of such special interest corruption against my calling for having something --- anything -- a message of sanity - addressed to this court ---- for everything I have is ready for a jury's open ear to listen to the evidence.

If I am unsuccessful at this civil level case without a counsel attorney representation, your Honor the only way to proceed for me is to break such an enforced acted restraining order so that I do indeed get court-appointed counsel in a criminal proceeding as representation to proceed to a case that will be -- I guarantee it -- the case of the century. The proceeding of this case will, of course, be referenced.. Your name will be etched into the history books, your honor. No matter who, what, why, how, or when you come across this message, slide into the role as being a peacebuilder with me and bring a sense wiseness of unity by following the words of Pope Francis call to the Nation in Front of Congress Sept 2015. That is all that I ask is that we follow some sanity over the insanity that has been established in the filing of this case. Thank you.

4. We took a serious and thorough moral measure of ourselves, noting the ways we collude with societal forces in our own exploitation, and noting our embrace of practices and beliefs about ourselves and others that make us vulnerable to being manipulated and exploited. This is an important step. We need to be aware that we are not just victims or victimizers, we are also collaborators. We are not helpless. We can also act...-for better or for worse. What we need to do now is unite around basic principles and create programs to achieve goals for the benefit of all.

#9Scourges12Steps

The 9 Scourges of Inequality and the 12 Steps of Social Improvement to Rebuild Trust In Our Communities: <http://meme.gruwup.net/#9Scourges12Steps/>

- 5. We have admitted to ourselves and out loud to others, the ways we have collaborated in our own victimization and the victimization of others.**
- 6. We are working to move beyond certain dysfunctional behaviors by taking action to better our own and other's lives. Some members of our collective take support from their religious or spiritual beliefs, as a private matter. Everyone's contributions enrich our group's development and efforts to create a broad unified movement.**

7. We ask for and are ready to give, the much-needed support that will help us unlearn collusion and internalize the new knowledge and wisdom that comes to us through our efforts, and which is so necessary for our growth. We also ask for and will give, support to help us rebound from the disappointments likely to occur among our triumphs.

8. We are studying to fill the gaps in US history, the better to grasp both the similar and different realities lived by the diverse peoples who have populated our nation from the very beginning. We are studying the systemic arrangements: economic, political, social and psychological; the terrains of class and color, poverty and wealth, privilege and persecution, the marvelous and shameful, the horrible and the beautiful. We do this not just to discover, learn and acquire knowledge for its own sake, but to more inform our thoughts about the dignity of life, creating change and building the future.

**The 9 Scourges of Inequality and the 12 Steps of Social Improvement
to Rebuild Trust In Our Communities:** <http://meme.growup.net/#9Scourges12Steps/>

9. We continue to take a moral measure of ourselves, as individuals and as a nation. When we are wrong, we admit it.
10. We work to promote and to demand from our government: federal state and local- fair and just domestic policies that support American's efforts to live healthy and productive lives. We also work to promote and demand humane and non-exploitative foreign policies that encourage peaceful relations between nations and the well-being of all humanity and our planet earth.

to Rebuild Trust In Our Communities:** <http://meme.growup.net/#9Scourges12Steps/>

11. We seek- through experience, study, meditation, imagination, discussion, and listening to each other- greater understanding, knowledge, and consciousness of the human condition and all life, the better to connect with others in developing a well-functioning, life-affirming, democratic society.

12. Having come to realize, by taking these 12 steps, that certain structural characteristics of US society hinder American's pursuit of happiness; has also realized the ways in which some of our own actions reinforce those hindrances, we have experienced an invigorating, moral, ethical, political, and personal awakening. Feeling the changes within ourselves, we are motivated to reach out and engage sympathetically and supportively with whomever we can. We ask each other here to do the same. Our collective plans hope and cultivate action. Our collective is powerful. We can and will reap a sustainable future.

Great Reasons Us Will Unite Peace

----- All of us are quite aware of, and deeply worried by, the disturbing social and political situation of the world today. Our world is increasingly a place of violent conflict, hatred and brutal atrocities, committed even in the name of God and of religion. We know that no religion is immune from forms of individual delusion or ideological extremism. This means that we must be especially attentive to every type of fundamentalism, whether religious or of any other kind. A delicate balance is required to combat violence perpetrated in the name of a religion, an ideology or an economic system, while also safeguarding religious freedom, intellectual freedom and individual freedoms. But there is another temptation which we must especially guard against: the simplistic reductionism which sees only good or evil; or, if you will, the righteous and sinners. The contemporary world, with its open wounds which affect so many of our brothers and sisters, demands that we confront every form of polarization which would divide it into these two camps. We know that in the attempt to be freed of the enemy without, we can be tempted to feed the enemy within. To imitate the hatred and violence of tyrants and murderers is the best way to take their place. That is something which you, as a people, reject. Our response must instead be one of hope and healing, of peace and justice. We are asked to summon the courage and the intelligence to resolve today's many geopolitical and economic crises. Even in the developed world, the effects of unjust structures and actions are all too apparent. Our efforts must aim at restoring hope, righting wrongs, maintaining commitments, and thus promoting the well-being of individuals and of peoples. We must move forward together, as one, in a renewed spirit of fraternity and solidarity, cooperating generously for the common good. The challenges facing us today call for a renewal of that spirit of cooperation, which has accomplished so much good throughout the history of the United States. The complexity, the gravity and the urgency of these challenges demand that we pool our resources and talents, and resolve to support one another, with respect for our differences and our convictions of conscience. Pope Francis : US Congress : Sept 2015

Mr. Henderson,

This email referenced in the subject previously sent was a closing thank you email after-all. I never received a response and you never clicked on my link to the case notes document that was filed and directed to the court magistrate in our case. This QR Code is that requested link that I asked you to open, read, and forward to your client and as a lawyer in our case, I asked that you also forward this to the Judge.

You hold no respect and have no intention to follow up with my requests. So I must find other means to facilitate this request. I do not state intentions that I do not intend to follow up with.

What makes you think it is cordial to ignore an email from anyone?

If I do not receive the appearance that my messages are received via tools that are available because I am an American citizen, why should I remain to be an American citizen?

My efforts in the defeat of justice and honor are about to head to the United Nations to take up my emotional feelings of betrayal that this country has allowed the haters to win --- and in this civil case --- time and time again this is the equation of injustice that will never release their hold on common decency. What makes you think that as nice as I can be, is still not nice enough for the endpoint human being on the other side to take the time and respect and honor an email? This email and it's presence and needs in our world and that it would be really nice to have something --- even a "take care" response from the addresses of community concerns that I am bringing forward. That is not what I receive. Complete silence is what is your side of dismissal, disjointed attitudes, and frankly hateful silence is your marker signet in these regards. That silence is in direct relevance, in this case, kills people.

AZ QUOTES

Nobody, absolutely nobody, can refute the truth that the markers in this conflict that are held by a few select first souls of naming convention, you and your client can't just walk away from this case knowing

[<http://doctor-eric-tomomi-shigeno.fuckeduphuman.net>] is a location on the web and as the Google Search Console terms it, the "property" of this space on the web is held by the force of the truth of honesty, that would be me.

As much as your client and his cohorts would like to bend the truth to wrap around their belief in a world gone haters run-a-muck,

You cannot take that fact away.

In the compassionate view of the world, I always considered this to be a temporary state of location designed to impact the world in a manner that would induce a method of compulsory response to reconciliation. But you won't see that standard to its resolve.

In the African Akan culture and beyond, along with their legal system that is founded under the Chiefton order of structure, the use the symbols of the Adinkra onto their documents, even filed in legal matters, is respected among the court, law enforcement, clergy, physicians, and those who represent legal counsel, such as you, as lawyers. In America, there is something missing very much in these needs of vital symbolism of moral guidance and wisdom. Without them, a dark hole of dishonesty is rutted in the representations that is the status quo in this country.

In the body context of the subject of this email, I asked you to link to an active linking document that was a part of the filing in San Bernardino Superior Court

case#CIV DS 1921276 as a case note directly to the Magistrate, Judge Wilfred John Schneider Jr, that he has not even a clue [or maybe he does] to what is going on in this case. In any case, this case remains a sore wound that has not been placed upright because there is no response of responsibility

that has allowed a hate memplex embedded still unaddressed in the social services and doctor provider care network of the Ryan White Care Act that is supposed to be for the support of persons with HIV/AIDS. There is a "moral agency" that I hold that I just can not turn a blind's eye to the truth that this hate

causes disturbing trends as reported on Glasdoor against these social service agencies.

In both of my defendant filings, in this case, a copy of the LinkedIn post from the United Nations of messaging from Secretary-General of the United Nations Antonio Guterres states our collective duty toward one another plain. Escaping into a world of silence to just walk the same the road you all have been walking is not really an option. Really? Can you just know I already have won?

"Together, we can put out the wildfire of hate and uphold the values that bind us together as a single human family. Hatred is a danger to everyone --- and so fighting it must be a job for everyone."
